Please note that the no legal fees facility requires the choice of a legal service provider nominated by Paragon. The service provides for legal fees and disbursements limited to remortgages where all the land comprised in the title currently owned by the applicant will be charged to the lender. If this is not the case, or any other legal services are required, Paragon's nominated legal service provider may charge additional costs for which the applicant will be liable. In all cases, the nature of the additional work and costs will be agreed beforehand between the legal service provider and the applicant.

£500,000	£30,000	£1,000,000	£25,000	21	5 years	25 years

Property

- The property must be let on an approved holiday occupancy agreement, for a maximum period not exceeding one month.
- The property must be capable of being let on an AST basis, and have an acceptable level of rental demand.

Affordability assessment

Standard SSC properties

The gross rental income from the property should equal or exceed the ICR as determined using a combination of the tax band applicable to an applicant's income and the property type. The tax band applicable to the applicant with the highest income will be used. The calculation will be based on the amount requested, at either the product charging rate plus 2% or 5.5%, whichever is the greater. The exception to this rule will be 5 year fixed rate products, which will be calculated using the amount requested, at either the product charging rate or 4.00%, whichever is the greater. The applicable ICR rate will be shown against each product.

Expatriate applications

The gross rental income from the property should equal or exceed the ICR based on the ICR percentages below. The calculation will be based on the amount requested at either the current reference rate of 5.5%, or the product charging rate plus 2%, whichever is the greater.

Holiday let properties

All calculations will be based on either the current reference rate of 5.5%, or the product charging rate plus 2%, whichever is the greater.

The affordability of the application will be assessed in one of two ways:

- Using the rental income that can be achieved on a monthly Assured Shorthold Tenancy (AST) for the property, calculated at the standard Interest Cover Ratio (ICR) percentages shown in the table below.
- Where two years holiday rental income can be evidenced by accounts, the gross annual rental income, averaged over 12 months, should be equal to or exceed the ICR of 150%. There will be a secondary calculation to ascertain that holiday rental income can also cover a minimum of 100% of the achievable monthly AST rent.

Applicant type	Applicable ICR	Holiday lets (AST rent used)	Holiday lets (Holiday let income used)
Basic rate tax payer (20%)	125%	125%	150%
Higher rate tax payer (40%)	140%	140%	150%
Additional rate tax payer (45%)	140%	140%	150%
Expatriates	140%	N/A	N/A

We must be satisfied that the applicant(s) are able to withstand increases in mortgage interest rates, cover rental voids and be able to afford the mortgage now and after any fixed period expires.

Future affordability

To cater for the PRA affordability regulation, we will require a property schedule to be completed as part of the online application in every case (a PDF version of the property schedule is available on our website). We will also need to ask for more information about your customer's income to enable us to apply the appropriate tax band and ICR to the affordability assessment. This product guide sets out how all future applications will be assessed, and at what rate and ICR.

£2,500,001 plus	Refer to lender (RTL)

The total fee includes a non refundable application fee of £150. The mortgage valuation report is a Security Assessment carried out for the benefit of the Paragon Banking Group to determine if a property provides acceptable security for mortgage purposes. Where an internal inspection has been carried out and the proposed security is subsequently declined, a valuation report will not be made available although a summary will be given advising why the property is deemed to be unsuitable.

In conjunction with other criteria, we will assess the affordability of a mortgage based on the expected monthly income generated from letting the property to a tenant. The actual income generated may be different and can be influenced over time by changes within the rental market. The applicant(s) will remain responsible for meeting the costs of the mortgage and the additional costs associated with letting property for the duration of ownership. Please refer to Paragon's non-portfolio buy-to-let lending guidelines and submission requirements for full criteria.
